MATHEMATICS MAGAZINE

Index to Volume XXIII September 1949 - June 1950

Articles - by Titles

Page

A Comparison of the U. S. Rule with the Merchants Rule for Computing the Maturity Value of a Note on Which Partial Payments Have Been Made—Joseph Barnett, Jr. 24
Advanced Mathematics from an Elementary Standpoint—M. R. Spiegel 244
America's Greatest—Duane Studley 75
An Elementary Introduction to the Calculus of Variations—Magnus R. Hestenes. 249
A New Series of Line Involutions—C. R. Wylie, Jr. 125
An Inversion of the Lambert Transform—D. V. Widder. 171
A Note on the Use of Discriminants—Robert E. Horton 247
A Statistical Problem in Advertising—C. D. Smith. 23
Basic Configurations of the Plane Under Certain Groups—M. Philip Steele and V. O. McBrien. 5
Duality and Differential Calculus in the Plane—R. T. Hood 235
Elementary Differential Equations—D. H. Hyers 193
High Standards: Sacred and Profane—Joseph Seidlin 189
Introduction to a Study of a Type of Functional Differential and Functional Integral Equations—Lewis Bayard Robinson 183
Metric Differential Geometry—Edwin F. Beckenbach. 143
New Proofs of Some Theorems of Hardy by Banach Space Methods—Angus E. Taylor. 115
Note on Convergence in Topology—Richard Arens. 229
On a Formula for Circular Permutations—Harold S. Grant. 133
On the Squares of Some Triangular Numbers—Pedro A. Piza 15
Polynomials for Best Approximation over Semi-Infinite and Infinite Intervals—Herbert E. Salzer. 59
Projective Geometry—H. S. M. Coxeter 79
Some Definite Integrals Occurring in Havelock's Work on the Wave Resistance of Ships—H. Bateman 1
Some Examples Illustrating Continuity and Differentiability—Gordon Raisbeck 17
Some Types of Elementary Equations—Carl H. Denbow 137
The Chronology of Pi—Herman C. Schepler 162, 216, 279
The Elementary Theory of Numbers—E. T. Bell 45
Theorems on Quadratic Residues—Albert Leon Whiteman 71
Variety of Mathematical Experiences—Harold E. Bowie 39

Articles - by Authors

The digit after the author's name indicates the number of this volume in which his biographical sketch appears. When the digit is missing, the sketch was published in a previous volume.

Arens, Richard, 5, Note on Convergence in Topology. 229
Barnett, Joseph, Jr., 1, A Comparison of the U. S. Rule with the Merchants Rule for Computing the Maturity Value of a Note on Which Partial Payments Have Been Made. 24
Bateman, H., 1, Some Definite Integrals Occurring in Havelock's Work on the Wave Resistance of Ships 1

Current Papers and Books

Analytic Geometry, W. A. Wilson and J. I. Tracey. Review—Helen G. Russell . 269
A Short Course in Differential Equations, Earl D. Rainville. Review—William E. Byrne., ... 215
College Algebra, J. B. Rosenbach and E. A. Whitman. Review—Helen G. Russell. 270
Comments on and Additions to H. V. Craig's Paper "On Extensors and the Lagrangian Equations of Motion"—C. W. Horton 31
Cybernetics, Norbert Wiener. Review—John L. Vanderslice 98
First Year College Mathematics, Paul H. Daus and William M. Whyburn. Review—Marion E. Stark 268
Introduction to Applied Mathematics, F. D. Murnaghan. Review—John L. Vanderslice. 101
Introduction to Complex Variable and Applications, Ruel V. Churchill. Review—Robert E. Greenwood 153
Number Theory and its History, Oystein Ore. Review—Morgan Ward 27
Solid Analytic Geometry, Adrian Albert. Review—R. G. Sanger 29
Solid Geometry, J. S. Frame. Review—R. G. Sanger. 28
The Real Projective Plane, H. S. M. Coxeter. Review—R. G. Sanger. 100

Problems and Questions

Contributors

Numbers refer to pages. Bold type indicates a problem solved and solution published; italics, a problem solved but solution not published; ordinary type, a problem proposed.

Barcus, O. R. *104*
Berkofsky, Louis, *277*
Bowie, H. E. *275*, **276**
Butchart, J. H. **157**
Cappel, K. L. *104*, *157*
Clarke, W. B. 205
Court, N. A. 104, 271
Courter, G. W. *33*
Cromelin, J. S. 205

Solutions

The page on which a solution appears is in parentheses following the number of the problem.

1 (104), 2 (272), 5 (104, 157), 13 (105), 14 (157), 15 (105), 17 (107), 22 (157), 24 (33), 28 (107), 29 (33), 30 (34), 31 (108), 32 (35), 33 (158), 34 (35), 35 (36), 36 (159), 37 (206), 38 (207), 39 (208), 40(209), 41 (210), 42 (273), 43 (275), 44 (276).
